

The 15th Webinar for Quantitative Genetics Tools for Mapping Trait Variation to Mechanisms, Therapeutics, and Interventions

Introduction to Metabolomics Platforms and Data Analysis

Friday, April 9th, 2021
10am PDT/ 11am MDT/ 12pm CDT/ 1pm EDT

Presented by:

Dr. Katerina Kechris

Professor
Department of Biostatistics and Informatics
University of Colorado Anschutz Medical
Campus

There is no fee associated with this webinar, but users are asked to register to receive the Zoom link and password.

Registration: https://bit.ly/osga_2021-04-09

Goals of this webinar:

The use of metabolomics to profile small molecules is now widespread in biomedical research. The goals of this webinar are:

- To describe research questions that can be addressed using metabolomics
- To give a general overview of metabolomics technologies
- To outline steps in a metabolomics data analysis pipeline
- To provide information on common resources and databases
