

The 18th Webinar for Quantitative Genetics Tools for Mapping Trait Variation to Mechanisms, Therapeutics, and Interventions

Introduction to the Methylome: Technologies and Analysis

Friday, August 27th, 2021
10am PDT/ 11am MDT/ 12pm CDT/ 1pm EDT

Presented by:

Dr. Katerina Kechris

Professor

Department of Biostatistics and Informatics
Colorado School of Public Health
University of Colorado Anschutz Medical

There is no fee associated with this webinar, but users are asked to register to receive the Zoom link and password.

Registration: https://bit.ly/osga_2021-08-27

Goals of this webinar:

Studying DNA methylation is widespread in biomedical research. The goals of this webinar are:

- To describe research questions that can be explored by profiling the methylome
- To give a general overview of DNA methylation profiling technologies
- To outline steps in DNA methylation analysis pipeline
- To provide information on common resources and databases

Sponsored by:

The NIDA Center of Excellence in Omics, Systems Genetics, and the Addictome
